21.5"

23.6"

# AI Lobby Concierge

## Feature 1

Open gate for owners using face recognition or other electronic identification – owners / tenants stand in front of the camera. It will use face recognition function to recognize them and open the door for them.

## Feature 2

Handling of visitors and guests – when a visitor comes in front of the mirror, he says which unit he would like to visit. The concierge will call the owner/tenant using his smartphone. The owner/tenant can open the door and call lift for the visitor right from the smartphone.

請等等，依家聯絡緊住戶...

打印二維碼

請先用手機拍下二維碼，進入電梯後可掃描二維碼到達樓層。

## Feature 2

Handling of package delivery and control of smart lockers – The concierge can talk to the delivery man and ask him which unit he wants to deliver to. Then the concierge will remotely command a smart locker to open and ask the delivery man to put the package inside and lock the door. Then the concierge will send a notification to the owner/tenant to ask him to come down to get the package.

### Feature 3

Handling of food or other delivery – for food or perishable delivery, the concierge shall ask the delivery man which units he wants to deliver to and call the owner/tenant using his smartphone. The owner/tenant can open the door and call lift for the visitor right from the smartphone.
